

Congratulations to Mr. Moy who have passed the instructor's examination of Certified Business Continuity Professional (CBCP) in August 2019.

The Certified Business Continuity Professional (CBCP) is the most widely recognized and held business continuity certification in the world. CBCPs are professionals that have demonstrated both knowledge and skill in the business continuity/disaster recovery industry. For the most part, these professionals have been working in the industry as leaders and are looking for the recognition that comes with certification.

CBCP is the accreditation program by DRI International (DRII). It is the non-profit that helps organizations prepare for and recover from disasters. We achieve this through education, accreditation, and thought leadership in business continuity and related fields. DRII strives for a more resilient world.

DRII Founded in 1988, it has more than 15,000 certified individuals in over 100 countries, and 94 percent of all Fortune 100 companies employ DRI certified professionals. In fact, more individuals are certified by DRI International than by all other organizations in our profession combined. In addition to certifying individuals, DRI assesses organizations to determine resilience and offers organizational accreditation.

DRI International Values:

- Acceptance, inclusiveness, and the promotion of mutual respect.
- Its recognition as the authoritative source and is committed to maintaining a position of neutrality within the profession so that it may serve as a platform for discussion and advancement.
- Its commitment to legal and ethical practice in providing high-quality business continuity management.
- Networking, collegiality, and collaboration and is committed to maintaining a diverse network, broadly represented in its governance, committee structure, and programmatic activities.
- Collaboration and partnerships with organizations and agencies, both public and private, interested in facilitating the institute's mission and goals worldwide.
- The exceptional expertise provided by volunteers and embraces the participation and support of all its diverse professional network.
- Its commitment to maintaining open lines of communication between and among the leadership and DRI International Certified Professionals, affiliates, and representatives.
- Technological innovation and its commitment to providing state-of-the-art technological and professional education and certification programs that meet the needs of its Certified Professionals and the broader profession.
- The promotion of new ideas and values, the importance of demonstrating proficiency, ongoing professional development, and continuing education.
- Compliance with all applicable laws and regulations.
- Its commitment to maintaining financial viability, effectively and prudently managing the institute's resources and operations, and monitoring its strategic plan to meet its mission and goals.
